

The Catalyst

Context is everything

- Before/ After Comparison
 - One-shot “Help me build a timesheet app”
 - “Here is the users background, applications they are used to using, type of computer user they are, etc.”
- Key Insight: Context changes everything- **Your AI needs good context to make design decisions**

The Timesheet Surprise

AI created an initial prototype that was different than anything I would have come up with.

Key realization : **AI was solving and design problems, not just regurgitating**
